

**TEXAS COTTON GINNERS' ASSOCIATION
ENVIRONMENTAL AFFAIRS COMMITTEE MEETING
June 23, 2025
Hilton Palacio Del Rio – San Antonio, TX
El Mirador C West**

Committee Purpose: To address all environmental issues (air pollution regulations, solid wastes regulations, gin trash, water issues, etc.) and derive a position on any issue and develop programs to address issues. Review current association positions or policies and programs in existence for effectiveness. Report recommendations to Board of Directors for consideration and adoption.

Goal or Objective: To develop any necessary positions or policies on environmental issues impacting the cotton ginning industry in Texas. Develop any necessary programs to specifically address issues and to fulfill the needs of association members. Provide direction and establish goals for the association staff to follow in addressing issues and implementing programs.

Possible Items to Discuss: Air pollution regulations, public relations program with gin neighbors, improper gin emission system and equipment design and installation, water issues, waste issues, how can TCGA assist its members with regulators, and any other issues dealing with polluting or protecting the environment.

Notes:
